

CENTRE RECORDS AS AT 1ST APRIL 2010

Explanation of Centre Records

GROUND RECORDS

These are records of the best performances by **Bankstown** athletes on our home **ground** (Crest). **Ground records** can be set in any event during official Little A's competitions held at the Crest which includes Saturdays, Gala Days, Centre Championships, Zone, Regional and State Carnivals.

The Region 3 Championships are regularly held at the Crest. This event is where many Bankstown Sports athletes achieved their personal best performances and set new ground records.

CENTRE CHAMPIONSHIP RECORDS

These are records of the best performances set by **Bankstown** athletes during **all** Centre Championships held by Bankstown irrespective of the ground.

Several records are better than the current ground records - these were set at **other venues:**

- 1971-72 season at McLean Oval
- 1972-73 season at Coleman Park
- 1973-74 season to 1977-78 season at the Crest Soccer Fields
- 1978-79 season to 1997-98 season at the Crest Athletic Field
- 1998-99 season at Everley Park Athletic Field
- 1999-00 season to present at the enhanced Crest Athletic Field

OPEN RECORDS

These are records of best performances set at the Crest by athletes from other centres which are better than or equal to those recorded by Bankstown athletes. When a Bankstown athlete betters an existing open record then the open record no longer exists.

Note:

A new record is credited when the existing record is bettered by 0.1 of a second during track events and 0.01 of a metre during any field events.

If two competitors in a running event are credited with the same time but can be separated by the judges then the competitor judged to be first is given the record.

A competitor whose performance equals an existing record shall be credited with equalling the record

Figures shown in brackets denote weights or heights.

- e.g. Discus/Javelin (350) = 350 grams or (1) = 1 kg
- Shot Put (1) = 1 kg
- Hurdles (60) = 60cm

From the 2005-2006 season Bankstown utilised electronic timing during normal competition. New ground records set using electronic timing are listed in hundredths of seconds (0.01) and are listed with an "E" in the last column. The new times will be listed as equal records until they better the old record by 0.1 of a second.
